December 20, 2007

Dear Skull and Bones Alumnus,

Every year since 1912, the Skull and Bones Society has honored a select group of students whose humble service and leadership to Penn State set them apart. You were one of those selected for this honor by your peers, and you continue to justify this honor through your contributions to society.

As Skull and Bones alumni, we can ensure the continuation of this legacy by positively impacting the student members of the Society. To facilitate this, our alumni group is taking the next step in our evolution and creating an endowment to increase opportunities for the newest members of Skull and Bones. This endowment will give Skull and Bones alumni the chance to enrich the lives of our newest members by providing opportunities for mentoring, job placement, increased communication, and the historical knowledge to effectively carry on the Skull and Bones Society. And, if we raise sufficient endowment funds, we will be able to eliminate annual appeals to cover the operating expenses for these projects.

Our initial goal for this endowment is \$100,000. When we announced its creation at our 95th Anniversary Dinner in July, we immediately received over \$7,500 in pledges from the attendees.

Please join us as we launch the Skull and Bones Endowment—a way to serve the newest members of Skull and Bones. To make your gift, simply return the enclosed contribution form or give online at www.GiveNow.PSU.edu. Be sure to select *Other* from the drop down list and type *Skull and Bones Endowment* on the Additional Information line.

Thank you in advance for your outstanding generosity.

For the Good of the Bone,

John Hook
